

Research group:

Demographic Analyses and Forecasts and Human Resources Research

Team members: B. Bleha, B. Šprocha, M. Káčerová, G. Nováková, P. Ďurček, A. Kakaš, M. Szabo

Main research directions:

- » Demographic processes – factors and processes of changes
- » Spatial dimension of demographic development – regional and local level
- » Geostatistical methods in demographic inequalities measurements
- » Demographic development and human resources forecasts
- » Population policies

Selected publications:

- Ďurček, P., Bleha, B. 2016. Globálne vývojové rysy demografickej reprodukcie vo svetle teórie štádií. Geografie - Sborník ČGS, 121, 1, s.121-155.
- Bleha, B., Šprocha, B. 2015. Geografické a demografické determinanty regionálnej diferencovanosti cenzových domácností na Slovensku - analýza a prognóza do roku 2030. Geografický časopis. 67, 3, s.219-241
- Káčerová, M. Ondačková, J. 2015. The process of population ageing in countries of the Visegrad Group (V4). Erdkunde, 69, 1, s.49-68

Projects:

- » 2013-2016 APVV 0018-12 "Human geographical and demographical interactions, nodes and contradictions in time-space network"
- » 2009-2013 COST TUD 0803 "Cities re-growing smaller"
- » 2012-2014 "Managing Migration and its Effects in SEE Transnational Actions Towards Evidence Based Strategies" (SEEMIG, South-East Europe Programme)
- » 2007-2009 APVV-0109-06 "Demography a demogeography – Important scientific disciplines and their relevance for the society"
- » 2009 project supported by the Ministry of Education of the Slovak Republic "Formation and operation of demographic and statistical information resources serving research support at the university and other research institutions"

Scientific activities at the department are organised according to research groups and research projects supported by grants. Research groups reflect the development of research priorities in human geography and demography, as well as external demand generated by public and private sectors. They reflect actual research activities of members of the department. Scientific and research works are based on their spontaneous interactions and joint effort resulting in particular research projects and scientific publications. Nevertheless, among individual research groups and their members exist intensive collaboration.
